

RSARS AWARDS CLAIMS and QSLs

50th Anniversary Certificate

For a claim for this Certificate the present requirement is NO QSL cards are required: a log sheet only is required.

Members are however requested to send QSL cards (via the RSARS Bureau) for contacts with GB50RSARS, G4RS and G3CIO because as a side bonus/opportunity those stations as such may at the end of the year be claiming RSARS Awards or even RSGB and ARRL Awards.

Those three stations will (via GOSWY) send out QSL cards and it follows that recipients of those cards will be able use those cards towards their own external claims as well as submitting them purely for internal RSARS claims (other than the 50th Anniversary Certificate).

For all other RSARS Awards

In accordance with the Awards Rules the QSL cards situation is:

(a) for Members resident within the British Isles, the requisite number of QSL cards must be sent with the claim

(b) for Members resident outside the British Isles, a certificate signed by two other radio amateurs (at least one of whom must be a fully paid-up Member of RSARS) certifying the examination of QSLs held by the applicant.

and in all cases accompanied by **RSARS AWARDS CLAIM FORMS IN DUPLICATE.**

NOTE: No matter where they are located in the UK when the contact is made you can only claim once per mode in respect of the year-long peripatetic activations of GB50RSARS, G4RS and G3CIO (in other words you cannot claim a further point beyond the first if you work these stations with another or others of the alternative prefixes in the range of G, GD, GI, GJ/GU, GW, GM).
