

Bredhurst Receiving and Transmitting Society (BRATS)

Sunday 23rd February 2014

BRATS run an excellent Rally in Rainham, Kent, on the third Sunday in February, the weather is usually variable as we have been snowed in and nearly rained off, but in 2014 it was fine, although with occasional drizzle.

The club members did everything possible to make us welcome, the car parking was direct and very helpful, (signing from the main A2 was quite useless, as usual, but what does that matter we know where it is!) they just about set up the stand for us, but somehow the trader numbers were down this year.

Trading - well we had very few members sign in, so where were you all? (It was good to have one pay his subs, so it's all worth it) The usual suspects had brought along their "bargains" and Walters & Stanton had a large display. One local punter bought a value morse key for his collection, only to have it stolen about five minutes later - he was not amused to express it mildly, so where do these people come from?

Finally the snack bar did a roaring trade and if you had a special badge you got a free coffee - now that must be good.

Where next - well I suppose it must be Kempton in April - see you?
