

## RSARS RALLY REPORTS No.83

Harwell Rally Report 9th February 2014

**Another Rally at Harwell, close to Didcot Railway Station and the GWR Railway Museum, has come and gone!**

**Not a great sign in from members - some were seen walking about but not visiting us, tucked away in a corner in room 2 - not an ideal place and to be corrected next year I hope.**

**We took the opportunity to welcome two new members and assisted them to complete the membership form – remembering just in time that it is now £10.**

**Predictions of "water, water, everywhere", were not quite accurate although part of the usual car park was "difficult" and the approach from some directions better along the main roads - The Didcot/Oxford railway line was closed and we paddled through Henley to get there! The day was rather pleasant much of the time and blue sky and sun greeted our departure home.**

**The show itself seems to get better and filled 5 different rooms - this year some interesting lectures and demonstrations took place, though your scribe did not benefit from them, of course. The rolls and cakes are almost worth coming for, in themselves.**

**I did not see a bargain, but I am sure some did.. Mario and I managed to buy the odd bits that we needed at better than eBay prices, so we are happy - come yourself next year!**

**Off now to BRATS Rally on Sunday 23rd February 2014 - See you there????**
