

## **Royal Signals Amateur Radio Society – RSARS**

### **Facebook Group**

We have created a new Facebook Group for RSARS Members to use as and when required.

This is a CLOSED GROUP which means that it is not open to anyone who is not a member of RSARS.

Membership is controlled by Administrators who are currently G4LRG and M0OIC.

All posts which are submitted must be cleared by one of the Administrators and anything deemed to be offensive or not relevant to Ham Radio will be removed.

Only members of the RSARS group will be able to see articles posted by other members.

This group should not be confused with the Google eMail group which operates as a mail/information platform only.

We welcome items/articles/conversations relevant to Ham Radio which may be of interest to RSARS Members which could be Photo's of Shacks etc, Antenna articles, Assistance required on Modes, Rigs etc – the list is endless and will hopefully be useful to all members at some stage or other.

The Group will run for a period of 6 months initially to gauge the popularity and usage and if all is progressing well, we will keep it running for the foreseeable future.

If you are unable to find the page which is named Royal Signals Amateur Radio Society – RSARS the link below will assist you to get there.
