NET RULES

1. Net Controller - Spain EA5AVL.506. - LES

2. Net Controller - UK G2ABR - CHRIS

The Overseas Net will operate as per published times - **Monday evenings.**

Owing to the COMPLEX NATURE of the Net, the following five simple rules will be applied:

1. The very first time you join a Net please give your call sign, and name. And also a report.
2. The Net will be run on a number system if you are the twelfth station to join, you become No. 12, UK. or overseas. This will ensure fair turns to transmit.
3. Keep the overseas QSO's as brief as possible. If you want to make it an official QSO, details as per RSARS rules apply. If it is not an official QSO then reports exchange etc., will suffice.
4. You do not need to sign out of the Net, you will be called twice as your turn comes round. If there is no response, then you have left that particular Net.
5. Please let the two control stations do their jobs, they are there to help and assist you, however, you must make an official QSO by yourself, unassisted (RSARS rules).

There are three Nets. You may attend all three, or whichever you decide.
