

RSARS RALLY REPORTS No. 72

West London Radio & Electronics Show (Kempton Rally) at Kempton Park Racecourse.

21st April 2013

The 21st of April was the best day for years to hold a Radio Rally, the motorway wasn't blocked for any reason and the sun shone all day.

I didn't actually try the edibles, but some said they were good and they seemed as popular as ever - oh! and yes there was the Radio Rally with stalls and lots of interesting s/h radio as well as the usual mega traders showing off their lovely new kit, at prices most of us would call eye watering!

The hall was well filled and the SK tables and Military radio surpluses were sold out by around midday. There was a good sign in rate for RSARS and welcome to 24784700 Banks A to the ranks of RSARS

So where next, see you all at Luton, I guess

Mike
M1CCF

All set up and ready to go!

Some of the other Stall Holders seem to be a bit laid back.

G8JAC in the background????
