

# RSARS RALLY REPORTS No.97

Harwell Rally Report 8th February 2015

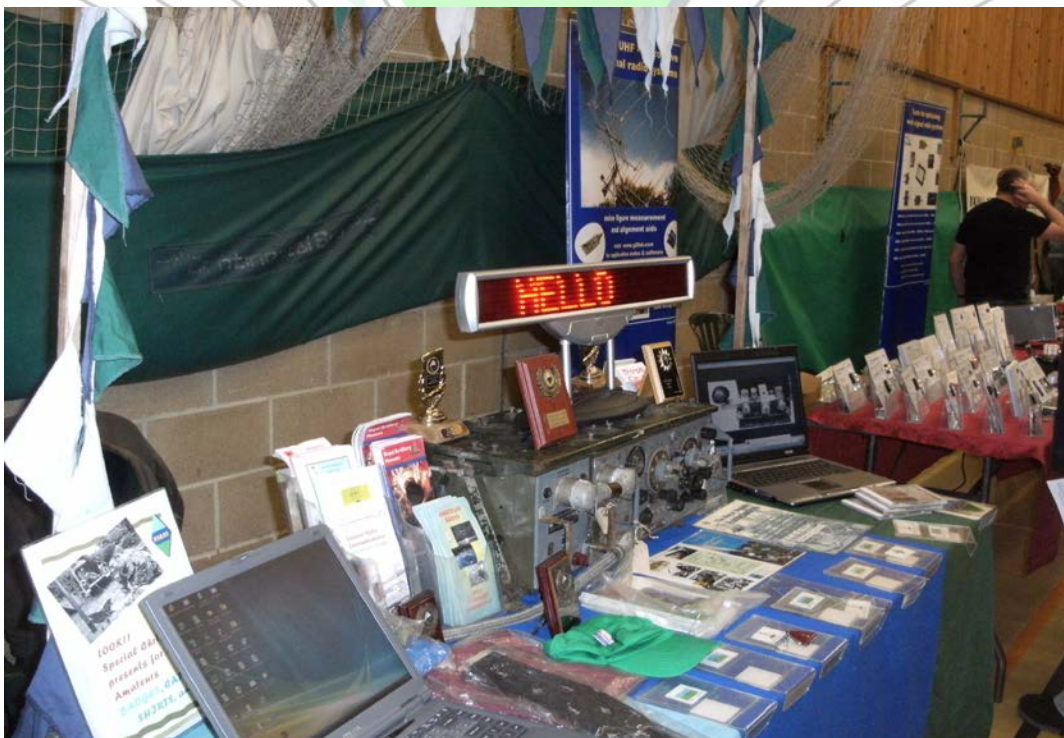

Well this year's Rally at Harwell or Didcot, which ever you prefer, was the usual grand affair with four halls full of lots and lots, and even more lots of very useful junk - AND not only that, the Bacon Butties were there as well, professionally cooked on what looked like the Scouts camp stove!

So everybody was really satisfied this year as there was a great pile of Vintage Radio for sale, much Military stuff included. RNARS looked as though they are downsizing with quite a few items for sale from yesteryear, or is it just that Belfast is going down under the weight?

We also welcomed G4FON back to the ranks of the paid amateurs - now that is, come to think of it, as good a reason as any to come and say hello to RSARS – that of paying your subs!
