

# Kempton Park Rally 2014

## 9 November 2014

Kempton Park on Remembrance Sunday has become something of a tradition, which may be reflected in the good membership sign in - even if YOU did not but anything or take the opportunity to pay your subs!

We stop at 11am and join with those on Parade at the Cenotaph in London (via BBC of course) and remember our comrades who have gone before us, so for a while it's a sad occasion.

Thereafter the trading and bargaining continues with a well filled show hall and lots of valuable spares passing through the door out into new owners hands - Remember the 58 set - well one was sold, not sure what for or even if it can ever be used again as, surely, there was a battery supply problem right from the beginning?!

Three HROs' were on sale - one went, at least and also much modern kit second hand and new.

Mario managed to strike a deal though the bring and buy corner run effectively as usual by CATS,, even if they did manage to lose his power lead!

So that is it for now - we are booked into Canvey Island Rally on 1st February and Didcot on 8th in 2015. More shows later in the year.

As indicated at the AGM we can always do with more help and we could perhaps attend more shows and encourage more people to join RSARS
