

# RSARS QSL BUREAU – Newsletter 140 (Bryan’s Bureau Blog)

## Future and Current Events: (Full details on our website)

### Special Event and DX Stations. (All with Affiliated Numbers)

G3ASG N2DAN Key winner from 20 June 2018. G3ASG

GM3ZET New Club member with permanent affiliated number RSARS members

EA6/G0SWY Sadly conditions were against Mike but to his credit he kept at it.

Ray G3ASG F??? has been worked by a few members, and I am pleased to include M0OIC in that. Members signed up to our RSARS Google will have seen his program of operation so I will leave it at that. Apart from saying that Ray, at the age of 96 years, is doing his best for members and I do feel the least we can do is plug in the key and support him.

Rick AI5P is now using FT8 and saw M0OIC being worked by WA2HIP, but sadly neither AI5P nor M0OIC saw each other, but we try.

## Bureau Users

### New members joining the bureau since 01 October 2018

NIL

## Bureau Activity

Cards received - 1.

The bureau users lists will be uploaded showing the state of play, or not, as at 01 November. There are, again, no changes.

## G3SIG Award

Chris G2ABR continues to activate G3SIG F099 and will welcome any calls from members, new and old, requiring this call. Sadly, he cannot travel GD, GJ, GM, GU, GW but hopefully one of these weeks/months the rare ones will be activated. GI3SIG is heard regularly with Harry active SSB, PSK31 and RTTY if needed, also David GI3KVD on CW so thanks to Chris, Harry and David we do our best.

November	G3SIG	G2ABR	
December	GI3SIG	GI3KVD	CW from 01 to 14 December 2018
December	G3SIG	G2ABR	SSB from 15 to 31 December 2018

## Nets

Just yet another reminder to members, old and new, we do have nets running most mornings, (less Saturday) Tuesday and Thursday afternoons, and Monday, Tuesday and Thursday evenings. For those interested in all things PSK31 and RTTY, although nets are gone, we still have a few dedicated members showing each Monday and Friday. CW of course Wednesday. Times and frequencies are shown on our RSARS website – Shack Aid.

It was good to hear a number of points being exchanged Tuesday and Thursday evenings 23rd and 25<sup>th</sup> October. Owing to QRM around our usual frequency Tue/Thur evening members need to search a bit further as we are finding 3.752MHz a bit quieter. Yes, still the odd QRM/QRN but not as ignorant or continuous as around 3.742MHz.

I hope Trick and Treat caused little upset and don't forget November 5<sup>th</sup> – “Pets Don't Like Fireworks.

ALSO! Don't forget our 559 contest 7MHz CW on Saturday 10<sup>th</sup> November. Full details on our RSARS website.

*73, Bryan*

M0OIC 3867

RSARS QSL Bureau Manager
