

## RSARS QSL BUREAU – Newsletter 142 (Bryan’s Bureau Blog)

**Future and Current Events: (Full details on our website)**

**Special Event and DX Stations. (All with Affiliated Numbers)**

G3ASG      N2DAN Key winner from 20 June 2018.

G3ASG

### **Bureau Users**

**New members joining the bureau since 01 December 2018**

NIL

### **Bureau Activity**

Cards received - Nil

The bureau users lists will be uploaded showing the state of play, or not, as at 01 January 2019. Again, there are no additions, just to keep date current.

### **G3SIG Award**

Many thanks to David GI3KVD for operating as GI3SIG in CW. Sadly not many members taking up his sked offer but again David, thanks for at least trying.

### **Nets – PIPO 2018**

From what I heard during the 12 hour period there was a fair bit of activity and a fair bit of calling into an empty desert. Speaking for M0OIC who managed 12 members it all went quiet (if I ignored S7 white noise) at 2232hrs and only the one member after 2222hrs, so yes it was quiet. I think I can predict the member working all net controllers, but all will be revealed in our next Mercury journal where the full PIPO Report will be included.

Finally, for those not signed up to our Google Group email system we had a member listed in The New Years Honour list as the year ended. Many congratulations to Paul M7FOZ on being awarded the MBE. Well done Paul and no doubt well deserved. I had the pleasure of exchanging details with Paul midday 31<sup>st</sup> December which was a great way the end the RSARS year. Only 28 new ones needed for my next claim ☺

Sadly, with little news it is difficult to fill the newsletter space. So, I will end by wishing you all a very happy and healthy 2019.
